[redacted]

1. One of the leading oral surgeons in the USSR is Professor Entin, DA, chief of the scientific laboratory at the dental school in Leningrad. He is a Colonel in the army and chief of the maxillofacial hospital, of the army. A paper by him entitled "Present State of Stomatology from the viewpoint of Pavlov's Theory and Present Problems" appeared in the Soviet journal Stomatologia, No 2:3-10, 1951. [redacted] 50X1
[redacted] 50X1
in the world Pavlov's theory could be applied to dentistry and suspects that it is merely an attempt to keep in line with the current political trend.
2. Other leading personalities are:
- (a) Professor Lukomsky, IG, dean of the dental school at Moscow, who was editor of the journal Stomatologia in 1947.
- (b) Professor Dazenko M, professor of maxillofacial surgery at the dental school in Rostov, who is also doing work in the field of fluoridation of drinking water.

- end -
